Self-Assessment

I am an innovative and down-to-earth team player continuously learning to develop reasonable solutions for complex challenges.
I work according to the principles of Clean Code and S.O.L.I.D. to guarantee high software quality.
I have 20 years of experience in web development, seven years in Linux administration, three and half years in business software development (ERP) and have dabbled in various tech skills throughout my career.

Work Experience

Webmaster

Ferienhaus-Vermittlung fincaferien.de GmbH, Germany

April 2004 - December 2019

Active involvement in web and network enhancements. Experience with HTML/HTML5, CSS/CSS3, Git and Jira, PHP, Drupal SEO, SEA and Linux administration.

Software Developer and Linux administrator

Sengicon GmbH, Germany

February 2021 - January 2022

Full-stack software development and Industry 4.0 applications. Refactoring PHP code and developing React web frontends with Material Design. Also involved in the installation, configuration, and administration of LAMP-stacks under Linux. Conducted application tests using PHPUnit.

SAP Technical Consultant, SAP Full-Stack Development

BA Business Advice GmbH, Germany

February 2022 - present

Business consulting and SAP solutions, including SAP ABAP, SAP MII, SAP UI5 Freestyle, SAP Fiori Elements, SAP S/4Hana Public Cloud Side-By-Side Extension, S/4Hana Public Cloud Side-By-Side Extension, SAP RAP and SAP CAP. Implemented migrations from ERP to S/4 HANA and refactored existing applications.

Education

Industrial Clerk

DAA GmbH in Hildesheim, Germany

Focused on business processes, commercial management and control, and economic and social studies.
