Professional Profile

Senior ABAP developer specialized in refactoring grown custom code: procedural reports, Dynpro applications and Z developments that have been extended for twenty years and are no longer safe to touch.

My approach is incremental. I read the existing code, reconstruct the business rules, agree them with the business, then rebuild the application in object-oriented ABAP with separated layers and modern ABAP SQL, in steps that can each go live on their own.

The result is code that is testable, upgrade-safe and documented, so the customer team can keep working with it after I leave.

Value for Contract Roles

- Available as a contractor for custom code refactoring and S/4HANA readiness: assessment, rework into ABAP Objects, replacement of obsolete statements, layer separation.
- Used to starting from code without documentation and from developers who have long left the company.
- Delivers in slices that can each go live, so the business is not blocked for months.
- Leaves written documentation and reconstructed business rules behind, not only code.

Professional Experience

Senior SAP Developer, intecsoft GmbH & Co. KG **01/2025 to 09/2026**
Dresden, Germany

Senior SAP development role focused on modernization, integration and software quality in S/4HANA projects.

- Refactored an undocumented SAP Business Suite Dynpro application in IS-U into object-oriented ABAP: reconstructed the business logic from the code, separated data access from presentation and made the application ready for S/4HANA.
- Rebuilt backend API interfaces in an S/4HANA customer project (SAP PSM) so that integration points became explicit and testable instead of hidden in report logic.
- Extended the intecsoft SAP solution Collection Sense FI and kept its productive web services and API interfaces stable during hypercare.
- Documented the reconstructed behaviour so the customer team can maintain the code without me.

Technologies
ABAP Objects, ABAP SQL, CDS Views, OData, SAP BTP, REST, Fiori/UI5, S/4HANA, Clean Core.

Technical Lead / IT Specialist, Ferienhausvermittlung fincaferien **03/2025 to Present**
Düsseldorf, Germany

Technical lead for the modernization of a heavily customized Drupal 7 multisite platform with undocumented custom modules.

- Go-live of the modernized platform on 6 September 2026: seven sites migrated without downtime, custom code documented.
- Refactored undocumented custom PHP modules and separated grown logic into maintainable units.
- Moved the platform to cloud infrastructure with separate development and production environments.
- Rebuilt the integration between business services and the CMS as documented REST APIs.
- Wrote the documentation that had never existed for the custom code base.

Technologies
Drupal 7, PHP, MySQL/MariaDB, REST APIs, Linux, Git, cloud infrastructure, documentation.

SAP Technical Consultant, BA Business Advice GmbH **02/2022 to 12/2024**
Oldenburg, Germany

SAP consulting and development with a clear focus on migration, refactoring and object-oriented rework of grown custom code.

- Migrated and refactored FI and PM custom applications from SAP R/3 to S/4HANA, modernizing twenty-year-old code into object-oriented ABAP.
- Rewrote grown procedural Z code into classes with clear responsibilities and ABAP SQL instead of obsolete statements.
- Applied ABAP Clean Core principles so extensions stay upgrade-safe.
- Contributed to a data migration from a self-developed C++ ERP system to S/4HANA.
- Developed new custom Z applications in S/4HANA with object-oriented ABAP, CDS and OData.
- Delivered in the project areas PPDS, QM, LE and PM.

Technologies
ABAP, ABAP Objects, ABAP SQL, CDS Views, OData, SE80, ABAP Development Tools for Eclipse, S/4HANA, Clean Core, SAP MII.

Software Developer and Linux Administrator, Sengicon GmbH **02/2021 to 01/2022**
Germany

Full-stack development with a focus on PHP code refactoring and the rebuild of a legacy web application.

- Rebuilt an outdated PHP web application into a PHP REST backend with a newly built React frontend.
- Refactored PHP backend code for intranet applications and reshaped database schemas.
- Refactored existing React frontend components.
- Wrote tests with PHPUnit and Jest to protect the refactoring.

Technologies
React, JavaScript, PHP, REST, PHPUnit, Jest, Linux, Apache, MySQL, MariaDB, PostgreSQL, Composer.

Webmaster / Web Developer, Ferienhaus-Vermittlung fincaferien.de GmbH **04/2002 to 12/2019**
Bockenem, Germany

Long-term responsibility for web development, operations and technical infrastructure. Started in 04/2002 as a part-time role of about ten hours per week alongside my apprenticeship as an Industrial Clerk, with full technical responsibility from 04/2004.

- Developed and maintained websites and web applications with PHP, Drupal 7, HTML and CSS.
- Customized and extended Drupal modules and introduced Git and Jira from 2015.
- Increased organic traffic through technical SEO, performance and usability work.
- Managed Linux, Samba and Windows network environments.

Technologies
PHP, Drupal 7, HTML, CSS, JavaScript, MySQL, Git, Jira, Linux, Samba, SEO/SEA.

Selected Projects

Migration of custom applications from R/3 to S/4HANA **04/2024 to 09/2024**

- Refactored and migrated FI and PM custom applications to modern ABAP.
- Modernized applications that had grown over twenty years.

Bloom optimizer, custom ABAP application (PPDS) **05/2022 to 06/2024**

- Developed a bloom optimizer for a steel mill that plans rolling processes by steel grade, loading location, minimum remaining ends and technical constraints.
- Implemented in Eclipse and SE80 and integrated into PPDS.

Data migration from a C++ ERP system to S/4HANA **03/2022 to 05/2022**

- Supported the migration of a self-developed ERP system to S/4HANA for a wire processing customer.

S/4HANA Cloud expert team (Public Edition), BTP extensions **12/2023 to 09/2024**

- Explored and introduced the development model of S/4HANA Cloud Public Edition in the team.
- Built developer extensions in Eclipse with Fiori frontends, key user extensions and CAP applications on SAP BTP, in a SAP RISE context.

Technical Skills

Refactoring	ABAP Objects, layer separation, dependency reduction, unit-testable design, removal of obsolete statements, modern ABAP SQL, code reviews, incremental rewrite strategies.
Migration	R/3 and Business Suite to S/4HANA, Dynpro to Fiori/UI5, custom code assessment and remediation, data migration support.
SAP backend	ABAP, ABAP SQL, CDS Views, OData v2/v4, RAP, BAdI and enhancement concepts, REST via SICF, ABAP Development Tools for Eclipse, SE80.
SAP frontend	SAP UI5 Freestyle, Fiori Elements, SAP MII, JavaScript, TypeScript, Jest.
Clean Core	Extension layer decisions, released API usage, upgrade-safe custom code, S/4HANA Cloud developer and key user extensibility, SAP BTP side-by-side.
Quality	Clean Code, SOLID, refactoring patterns, architecture documentation, Scrum (PSM I), Jira, OpenProject, Git.
Web	JavaScript, TypeScript, React, Node.js, PHP, REST APIs, PHPUnit, Jest.

Education and Training

Software Architecture, Software Academy by intecsoft, Dresden, Germany **07/2025**
iSAQB CPSA-F Foundation Level training (online, 14–17 July 2025), certificate of attendance; exam planned for Q4/2026.

Full-Stack Web Developer, Indisoft GmbH, Germany **2020 to 2021**
Full-Stack Web Developer certification (HTML, CSS, JavaScript, PHP, React, databases).

Agile Project Management, Indisoft GmbH, Germany **05/2020 to 06/2020**
Professional Scrum Master I (PSM I), certified by Scrum.org in June 2020.

Industrial Clerk, DAA GmbH, Hildesheim, Germany **2002 to 2004**
Apprenticeship as Industrial Clerk (Industriekaufmann).

Certificates and References

- Reference letters on request.
- Certificates: Certificate of attendance CPSA-F (iSAQB training, 2025), Professional Scrum Master I (Scrum.org, 2020), Full-Stack Web Developer (2021), Agile Project Management (2021), Object-Oriented PHP (2020).
